Profile of the study program

The SARUD Master's Program "Sustainable Agriculture and Rural Development" focuses on practical education in the field of sustainable agriculture and rural development. It is an interdisciplinary specialty at the interface between economics and agriculture.

The Master's program SARUD considers the basic international concepts of sustainable development, covering all three components of sustainability.

Specialists in the field of sustainable agriculture and rural development will be able to independently apply the concepts of rural development to local conditions.

Co-funded by the
Erasmus+ Programme
of the European Union

Project number 561969-EPP-1-2015-1-DE-EPPKA2-CBHE-JP

Graduates of the Master program will
